DIARY NOTES

A-DD/A *PMW*

8 July 1953

25X1A 1. Mr. Meloon reports that [REDACTED] who is in the custody of the [REDACTED] police, resigned this morning effective at the close of business today. I have informed [REDACTED] who said that he would tell the Director.

25X1A9a

25X1A9a

25X1A9a 2. [REDACTED] telephoned to say that if Bureau of the Budget representatives wanted to see our construction in the Far East they could do so [REDACTED]. I told him that when Mr. Macy had obtained approval from the Bureau of the Budget to make the trip I would mention it to Mr. Dulles to make sure that he understood it.

25X1A6a

25X1A6a

3. Discussed the proposed funding mechanisms regulation with [REDACTED] and told him that I did not agree that the paper which he had written accurately reflected the decision reached at our meeting with the Inspector General last week. Asked him to contact Ed Saunders and try to work out a satisfactory paper.

25X1A9a

[REDACTED]

25X9A2

25X1A 5. Jim Garrison advises me that he is interviewing a former executive of [REDACTED] whom he is considering for the Chief of his Purchase Division.

6. I asked Jim to check [REDACTED] to find out what plans were in the mill for some of our radio transmitter equipment which is costing us a substantial amount of money to stock.

25X1A9a

7. Mr. Garrison assures me that his office is following closely the changes being made at NPA. He is reasonably certain that we will be able, through some means or another, to get priorities when we need them.

8. Dr. Tietjen telephoned to say that he had prepared a study some time ago having to do with the screening of dependents going overseas and, also, the care of dependents. He said that he presented his paper to the General Counsel who said that there was no objection to going forward with such plans on a "no cost to the Government" basis. I authorized Dr. Tietjen to proceed with his program on that basis.

9. Attended a Project Review Committee Meeting at which the SE Country Program was approved subject, of course, to budgetary and personnel limitations

which may subsequently be authorized by Congress.

10. George Carey telephoned to say that he had previously requested eight people on a temporary basis to build the [REDACTED] Station and that if he couldn't get these people he, of course, would be hard put to construct the Station and, at the same time, operate [REDACTED] I told him that if he would prepare a memorandum of justification I would approve of entering the eight people on duty with the understanding that they would be absorbed or disposed of in some way prior to 30 June 1954, and that if, during the Last Quarter of the Fiscal Year, it appeared that an extension were needed we could consider the matter again at that time. 25X1A6a

11. Mr. Dulles requested that I advise him at the earliest possible time tomorrow morning of the locations, quantities, and types of "hardware" in Western Europe so that he could have the information available for use at his meeting with the National Security Council at 10:00 a.m. 25X1A6a
